Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/10/2006 has been entered.

Based on the Applicant's amendment to the claims and persuasive arguments, the art rejection is withdrawn. However there remain the issue of 35 USC §101 and 35 USC §112. See the discussion below.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1-11, 15-25, 46-49, 55-61, 65, 66 and 84-90 are directed to non-statutory subject matter. Independent claims 1, 46, 48, 59, 65, 85 and 88-90 recite and show steps in the body of claims for image signal transformation such inverse transformation. However 1, 46, 48, 59, 65 85 and 88-90 do not provide a practical application that produces a useful, tangible and concrete result such as decompression or decoding of image signal. The final result achieved by the claimed invention should be useful tangible and concrete. The process claim must set forth a practical application of that

101 judicial exception to produce a real world result. Claims 2-11, 15-25, 47, 55-58, 60-61, 66, 84-87 are dependent claims therefore they are also rejected.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-11, 15-25, 46-49, 55-61, 65, 66 and 84-90 are rejected under 35 USC § 112 as being indefinite.

Independent claims 1, 46, 48, 59, 65, 85 and 88-90 recite in lines 1-2 "digitally processing integer transform data representing a phenomenon". In this limitation phenomenon is vague and indefinite. Phenomenon is defined English dictionary as an unusual, unaccountable or remarkable fact or occurrence. It is not clear from the specification how phenomenon is digitally processed. Specification has discussed JPEG, and video processing. Claims 2-11, 15-25, 47, 55-58, 60-61, 66, 84-87 are dependent claims therefore they are also rejected.
